LETTER OF FULL INITIAL LEAD INSPECTION COMPLIANCE

Date: January 11, 2005

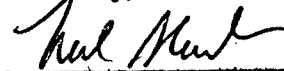

SOMERSET HILLS LP
88 WAVERLEY STREET
FRAMINGHAM, MA 01702

Dear Somerset Hills LP:

This letter is to certify that I inspected your property located at 10 Wampus Avenue, apartment no. A, and relevant common areas, in the City or Town of Acton, for dangerous levels of lead according to 105 CMR 460.730 of the Regulations for Lead Poisoning Prevention and Control, and determined that there were no violations of the Lead Law. The inspection was conducted on January 11, 2005.

Please be advised that Massachusetts law requires that only certain residential surfaces be free of lead paint. Thus, this letter does not mean that your property contains no lead paint. The premises or dwelling unit and relevant common areas shall remain in compliance only as long as there continues to be no peeling, chipping, or flaking lead paint or other accessible materials and as long as coverings forming an effective barrier over such paint and materials remain in place. The law grants you a 30-day maintenance period to repair deteriorated lead paint or detached coverings over such paint, and to clean up, during which time this Letter remains valid. The initial inspection report indicates which surfaces, if any, contain a dangerous level of lead, as well as those surfaces, if any, that were covered upon initial inspection.

Sincerely,

Inspector

M-1377

Please be advised that Massachusetts law requires that only certain residential surfaces be free of lead paint. Thus, this letter does not mean that your property contains no lead paint. The premises or dwelling unit and relevant common areas shall remain in compliance only as long as there continues to be no peeling, chipping, or flaking lead paint or other accessible materials and as long as coverings forming an effective barrier over such paint and materials remain in place. The law grants you a 30-day maintenance period to repair deteriorated lead paint or detached coverings over such paint, and to clean up, during which time this Letter remains valid. The initial inspection report indicates which surfaces, if any, contain a dangerous level of lead, as well as those surfaces, if any, that were covered upon initial inspection.

Sincerely,

Inspector

LETTER OF FULL INITIAL LEAD INSPECTION COMPLIANCE

Date: January 12, 2005

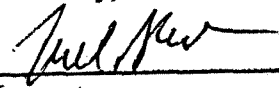

SOMERSET HILLS LP
88 WAVERLEY STREET
FRAMINGHAM, MA 01702

Dear Somerset Hills LP:

This letter is to certify that I inspected your property located at 12 Wampus Avenue, apartment no. H, and relevant common areas, in the City or Town of Acton, for dangerous levels of lead according to 105 CMR 460.730 of the Regulations for Lead Poisoning Prevention and Control, and determined that there were no violations of the Lead Law. The inspection was conducted on January 12, 2005.

Please be advised that Massachusetts law requires that only certain residential surfaces be free of lead paint. Thus, this letter does not mean that your property contains no lead paint. The premises or dwelling unit and relevant common areas shall remain in compliance only as long as there continues to be no peeling, chipping, or flaking lead paint or other accessible materials and as long as coverings forming an effective barrier over such paint and materials remain in place. The law grants you a 30-day maintenance period to repair deteriorated lead paint or detached coverings over such paint, and to clean up, during which time this Letter remains valid. The initial inspection report indicates which surfaces, if any, contain a dangerous level of lead, as well as those surfaces, if any, that were covered upon initial inspection.

SOMERSET HILLS LP
88 WAVERLEY STREET
FRAMINGHAM, MA 01702

Dear Somerset Hills LP:

This letter is to certify that I inspected your property located at 16 Wampus Avenue, apartment no. B, and relevant common areas, in the City or Town of Acton, for dangerous levels of lead according to 105 CMR 460.730 of the Regulations for Lead Poisoning Prevention and Control, and determined that there were no violations of the Lead Law. The inspection was conducted on January 14, 2005.

Please be advised that Massachusetts law requires that only certain residential surfaces be free of lead paint. Thus, this letter does not mean that your property contains no lead paint. The premises or dwelling unit and relevant common areas shall remain in compliance only as long as there continues to be no peeling, chipping, or flaking lead paint or other accessible materials and as long as coverings forming an effective barrier over such paint and materials remain in place. The law grants you a 30-day maintenance period to repair deteriorated lead paint or detached coverings over such paint, and to clean up, during which time this Letter remains valid. The initial inspection report indicates which surfaces, if any, contain a dangerous level of lead, as well as those surfaces, if any, that were covered upon initial inspection.

Sincerely,

Inspector
